View my >>Projects<<

Highly driven, enthusiastic individual with a constant drive to self-improve shown through my curiosity to learn, as well as a passion for technological change and connecting with people. Being a millennial baby, a career in tech is seemingly an imperative path that I will take and something I want to learn more about imminently. I aspire to be a top Software Developer since it allows me to mix my interest in tech with my love for design.

Professional Qualifications & Education:

Udemy Courses: Data Structures and Algorithms | Modern React with Redux   **February – Present**
- Further coverage of data structures such as arrays and stacks as well as algorithm sorting. In depth understanding of key concepts such as JSX, virtual DOM and Redux architecture.

Wes Bos JavaScript Course & JavaScript Vanilla 30 Day Challenge   **January – February 2023**
- Built up a strong foundation in JavaScript that can be applied to a wide range of projects and programming tasks.

HarvardX CS50 Introduction to Computer Science   **January 2023**
- Consolidating understanding of abstraction, algorithms, data structures, encapsulation, resource management, security, software engineering, and web development.

Le Wagon, London   **October 2022 – December 2022**
- 9 week Full-stack Web Development bootcamp. Learning HTML, CSS, JavaScript, ES6, SQL, Tailwind, React.js, Bootstrap, Ruby, Ruby on Rails, Figma, Trello, git, GitHub and Heroku.

Newcastle University, Business Management & History of Art - 2:1 Degree   **September 2019 – June 2022**

Professional Experience:

Jupiter Asset Management, London   **August – September 2022**
- Spearheaded comparison between two decades of annual returns across 6 portfolios holding over 300 equity, bond and mutual fund classes.

Waverton Investment Management, London   **September 2022**
- Understanding the build-up of equites, fixed income, and alternatives in a portfolio. Learning about the factors impacting markets was fascinating, as a result I read widely to maintain an understanding of topics that may impact markets.

Piper, Venture Capital and Private equity, London   **April 2022**
- Undertook research of the growing functional drinks market. Globally, £115.77bn(2021) predicted to grow to £279.77 bn in 2030.
- Understanding the importance of SEO and google analytics.

Venrex, Venture Capital, London   **July 2021**
- Learnt how companies operate from seed stage and development.
- Skills learnt from summarising pitches, valuable in making sure a concise yet to the point document is drawn up.

Entrepreneurial Experience
- 'Northhunderland'; Organised a festival in the North of England.
- Co-orchestrated 'Nighttube', a music entertainment night.

Interests & Activities:
- Captained the assault course team, intense early morning training for my team taught me disciplinary skills.
- Technology and design
- Golf, kitesurfing and running

Achievements:
- Cycled length of UK (Land's End → John O'Groats) over 12 days raising £12,000 for 3 charities. Challenged me hugely, but it taught me how to succeed in a group it required us to work together and look after one another when difficult times prevailed.
